FORKTRUCK

Thorough Examination

**Thorough
Examination**
Starting from
£95/cert

Heyn Forktrucks, are one of the few forklift companies using Thorough Examinations to improve their servicing profile for customers in Northern Ireland

What is it?

Thorough Examination for forklift trucks is similar to the mandatory MoT for cars—an essential inspection to verify the safe operational condition of your forklift's mechanical components. It differs from routine maintenance and is obligatory, irrespective of recent servicing.

It is the **LAW!**- to protect the health, safety and welfare of your employees

What do I need to do?

A Thorough Examination should be carried out once a year (depending on vehicle use)

Book a test with us and we will visit your premises at a time that suits and carry out a full inspection keeping in line with LOLER and PUWER Regulations 98.

What are the benefits?

You will be provided with a certificate of inspection and a full report on the working condition of your truck. If anything arises from our inspection, we are on hand to assist with repairs or maintenance. The most important benefit from having an inspection carried out- is the peace of mind that your truck is safe to use
